Parallel Text

FR

Une première phrase
synthétique sert de texte
source.

EN

A first synthetic sentence
serves as the target text.

translation note. This note is linked to alignment a1, not to a visual page position.

FR

Une seconde unité est
volontairement un peu plus
longue afin de montrer que
la présentation peut laisser
le texte couler sans modifier
les identifiants sémantiques.

EN

A second unit is
deliberately a little longer
to show that presentation
may let text flow without
changing the semantic
identifiers.

editorial note. Alignment is semantic and survives a presentation-mode change.

Translation Note

This generated starter contains synthetic source and target segments only. Replace them with project-owned text.
